The first 5 chapters explore what family means today, circumstances that can make family life challenging or painful, and how prevention and treatment approaches can help. The next 8 chapters focus on potentially distressing events, including adoption, divorce, stepfamilies, lesbian and gay families, foster care, parents with mental illnesses, physical abuse, and sexual abuse.

Material Title: **Ghosts from the Nursery**

Author: Robin Karr-Morse *Books* 1997 298 pages

This book offers startling new evidence that violent behavior is fundamentally linked to abuse and neglect in the first two years of life. Using case histories of "children who kill," along with the latest in brain development research, the authors show how infancy is the stage during which foundations for trust, empathy, conscience and lifelong learning and thinking are laid down or during which a predisposition to violent behavior is "hardwired" into the brain.
